“I will start my writing by saying that I am a student at USM and this is my second year at the university. I met Mary Katherine her last year tutoring at the university. She was my tutor for most of the time. I learned a lot from her. I felt comfortable working with her because she understood me very well. She made me read out loud so I could catch my mistakes. I loved how she used to suggest me using different words or more professional ones in a way that didn't make me feel ashamed or embarrassed for not having English as my first language...I took all of her suggestions in consideration and I got A's for all of my papers.”

“I started going to see Mary Kathrine once or twice a week for help with a personal story I was writing. I had some great ideas but I also had a lot of questions about writing, and I wasn't sure how to put my thoughts onto paper. Mary Kathrine started tutoring me and helped me to fully express myself and ideas through writing. My story has come a long way as she spent hours teaching me and encouraging me as a writer. She is so easy to talk to and I never feel put down or discouraged while working with her. She is a capable, talented teacher with a strong passion and joy for writing. She has been a blessing to have. I would recommend her to anyone!”
